

WELCOME TO CLEVELAND NEURAL ENGINEERING WORKSHOP – ClevelandNEW

We are extremely excited to welcome you to Cleveland, Ohio for the 2015 ClevelandNEW workshop. We have been working intensely since the close of the first workshop in order to provide an exciting and intimate 2-day workshop focused on Neural Engineering.

In 2013, the Cleveland Neural Community brought together key players and experts across the value chain of neural engineering to discuss the most effective practices to develop and translate neural technology and create a network of collaborators to achieve “It Just Works”.

This year’s objectives are bolstering the neural engineering community, and developing a cohesive vision and plan for the field to best advance neural technology for the next century.

LOGISTICS

GROUND TRAVEL TO/FROM CLE HOPKINS AIRPORT

Ground travel to and from CLE Hopkins airport is provided, the shuttle schedule and access locations are listed on the workshop website at <http://clevelandnew.org/index.php/workshop-2015/logistics>

LODGING AND MEALS

All Cleveland NEW attendees are required to stay at the Case Western Reserve University dorms Village @ 115. Cleveland NEW Workshop attendees will be accommodated in House #1, located at 1672 E. 117th St., Cleveland, OH 44106. The workshop registration includes your room registration. All meals are provided during your stay with us; please let us know if you have any specific dietary restrictions.

WORKSHOP

The workshop is utilizing a SharePoint site to provide interactive real time communication, **a smart phone, tablet, or pc will be needed**. There will be a separate notification for log on process. Recharge stations will be provided at the workshop.

In closing, your commitment and participation in the ClevelandNEW Workshop is appreciated. It will be an energetic and engaging process that will yield significant outcomes in the field of Neuro-Modulation.

See you in Cleveland!

Dustin, Ken and the ClevelandNEW Executive Committee
